Event Pulse is a global activity feed which allows you to quickly and easily share personal status updates and photos that you take at the event. Event Pulse also displays a list of popular activity and is easily accessed by tapping the Event Pulse icon on the app dashboard.

Are you keen to let others know what you are up to? Or prefer to simply share a reflection of your experience at the event?

Then open the app, complete your in-app profile, click the Event Pulse icon and start capturing your unique perspective. Sharing is as easy as typing in your status or uploading a photo directly from your device.
